Sir

I have the honor to recommend that Deputy Commissioners of Districts may be directed to notify as fully as possible to the inhabitants of the different talugs at the head quarters of which midwives are resident that the services of qualified midwives are available and with a recommendation that their services may be sought in all cases of doubt or difficulty.

2. I think some action of this kind is called for as some Hospital Assistants have reported when forwarding the monthly returns of the work done by midwives that they were of opinion the people of the talugs generally were unaware of the presence of these qualified midwives at the Cushak towns and of their services being available in case they required them.

3. In notifying as above suggested it would be well that the people should

should be informed that the services of the midwives shall be rendered gratis.
